In accordance with the Tender invitation for Tender 2024-2 (“**Conducting corruption and integrity risk assessments (CIRA) in selected sectors and improving conflict of interest managing systems**”), Regional Dialogue is issuing a

DECISION ON AWARDING TENDER

Based on the public procurement procedure for “Conducting corruption and integrity risk assessments (CIRA) in selected sectors and improving conflict of interest managing systems” published on 20 November 2024, Regional Dialogue is awarding the tender to **Dr. Quentin Reed**, whose submitted offer meets all the conditions set in the tender documentation, with a total tender price in EUR including VAT amounting to 165.000 EUR.

Explanatory notes:

On 20 November 2024, Regional Dialogue (the Contracting Authority) issued an invitation to tender for “**Conducting corruption and integrity risk assessments (CIRA) in selected sectors and improving conflict of interest managing systems**”, with a deadline for submission of tenders by 27 November 2024, 11:00 a.m. CET.

The Contracting Authority received the following offers by the deadline set forth in the Tender invitation:

Nr.	Tenderer	Total tender price incl. VAT	Time of receipt of the offer
1.	Dr. Quentin Reed	165.000 EUR	26 November 2024, 12:27 CET

a) Eligibility of offers

The Contracting Authority set out the conditions for determination of eligibility to participate in the procurement procedure (paragraph 8. *Eligibility* of the Tender invitation) and checked the offers received in terms of grounds for exclusion, conditions of eligibility for professional activities, conditions for participation as regards technical and professional competence, and

personnel requirements or capability. The Contracting Authority finds the tender offer received complete, as it contains all of the completed forms and other relevant proof documents and is thus eligible from the technical point of view.

b) Performance of offers based on the evaluation criteria

Tender Invitation set forth two criteria for evaluation of received offers as described in detail in the Tender Invitation. As the sole purpose of these criteria is to select the most advantageous offer out of multiple timely and complete offers received, the Contracting Authority didn't apply them as it received only one offer, which:

- is complete,
- meets all the requirements and conditions from the Tender Invitation,
- is within the budget set by Regional Dialogue for this project.

As Dr. Quentin Reed's offer was both eligible and within the budget set, the Contracting Authority decided on awarding tender as stated above.
